

Specifications

Ventilation application 

Brakel® Wind/rain control panel WRZ 40M-4G

A control and supply system for a max. 40 drives 230V AC with a total power consumption of 200 mA distributed over 4 ventilation groups.
Prepared for connection of rain detectors RM/2 or wind/rain detector WRM/2.
Possibility to connect to several WRZ 40M-4G control panels through integrated cascading function. Adjustable functions on the device and optional service port software on integrated PC interface.
With built-in indicator lights for operating conditions and wind speeds over a 7-segment display.

Technical features

- Indicator lights for operating conditions
- Display of the wind speed over 7-segment display
- Connecting an external switch "Auto / Manual / Off"
- Options for the coupling of several control panels
- Configuration via optional service port software
- Potential free output for a wind/rain message

Nominal data

Supply voltage	: 230 V AC / 50 Hz (± 10 %)
Dimensions (H x W x D)	: 250 x 160 x 90 mm (without screws)
Degree of protection	: IP 54 in accordance with DIN EN 60 529
Housing	: Plastic, gray with transparent lid
